Our solution suite is cloud native and cloud agnostic

Finacle offers a cloud-native, cloud-agnostic digital banking suite that can be deployed flexibly – on a private, public, or hybrid cloud – to suit your bank's requirements. Finacle applications run in a containerized environment orchestrated by Kubernetes, which is supported in all cloud environments.

We have partnerships with all major global and regional cloud providers, including AWS, Microsoft Azure, Google Cloud, IBM, Redhat, and Oracle. Whether your bank is looking to transition entirely to the cloud or do it progressively in phases, Finacle provides the necessary flexibility and support. Finacle's componentized structure allows you to choose any combination of solutions matching your bank's specific business priorities and modernization strategy.

On-premise / Private cloud deployment

Deployment in the client managed private cloud / on-premise traditional deployment

Client managed public cloud

Deployment in the bank managed public cloud environment

Software as a service - Single tenant model

Solutions offered as a service by Finacle or partner, full opex model

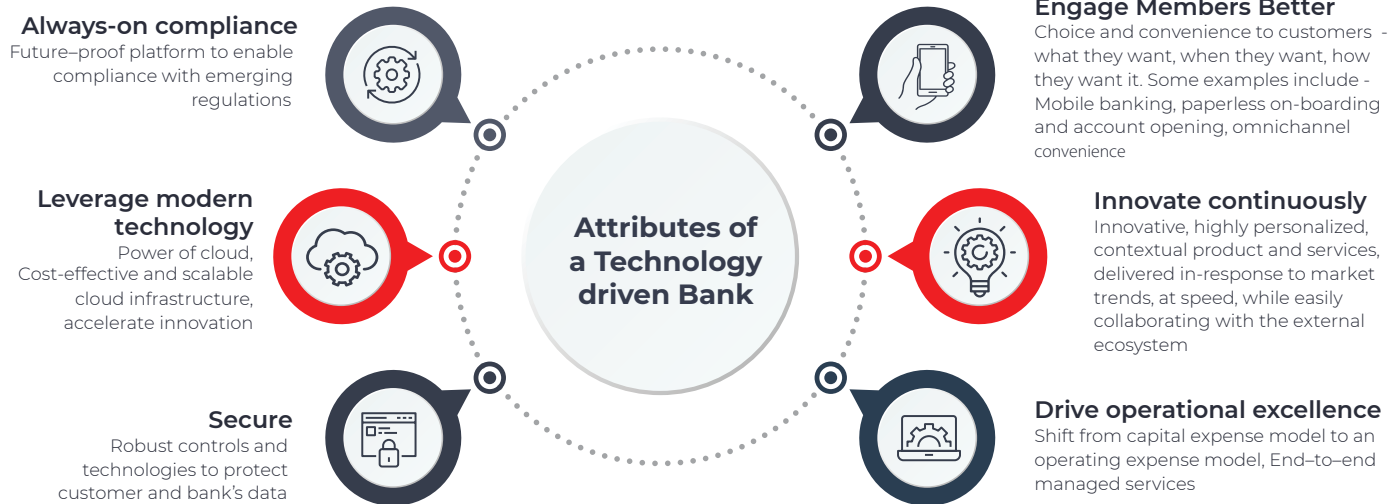

Software as a service - Multi-tenancy model

Multi-tenant service offered by Finacle or partner, full opex model

Our cloud partners

Building a bank of the Future

Designed for Thrift Banks

- Affordable
- Cost-effective
- Seamless adoption
